

CZECH-NORWEGIAN RESEARCH PROGRAMME

Norwegian Financial Mechanism 2009–2014

Norway Grants

ABOUT PROGRAMME

The Czech-Norwegian Research Programme (Programme) enhances bilateral science and research cooperation between the Czech Republic and Norway thus contributing to development of scientific knowledge, strengthening of research capacities and building of competences of participants and researchers.

PROGRAMME THEMATIC AREAS

- Environment
- Health
- Social Sciences and Humanities

Interdisciplinary research projects are also supported.

SUPPORTED ACTIVITIES

The Programme supports creation of a new scientific knowledge and quality outputs through bilateral research projects in fundamental and industrial research and experimental development. Enhancement of mutual research collaboration between Czech and Norwegian eligible entities through bilateral non-research initiatives is also a priority for the Programme.

ELIGIBLE TARGET GROUPS

- Research organisations; and
- Small and medium-sized enterprises (SMEs).

HORIZONTAL ASPECTS

The Programme promotes mobility and supports young talented researchers (involvement of Ph.D. students and postdocs in the projects) and involvement of researchers who have returned from maternity leave.

ALLOCATION

The total amount available through the Programme is 17 078 091 €. Of this amount, 90% funds bilateral research and development activities.

PROJECT SIZE

The minimum amount is 100 000 € and the maximum grant is 1 000 000 €.
